

# Monaco Art Week

## Shuttle through 500 years of art

**T**he idea is tempting: a journey through 500 years of art history, through some of Monaco's most impressive galleries on a free shuttle bus. This is exactly what Monaco

Art Week offers. For the second year, the Principality invites you to discover the wealth of art on display. From 24 to 28 April, ten galleries and an auction house in Monaco's Larvotto, Monte-Carlo and Condamine districts can be visited by a designated shuttle bus.

The programme includes current exhibitions, meetings with the artists and a discussion panel. Objects and artwork from five centuries will be on display, including the latest contemporary art. According to the organisers, the originality of the Monaco Art Week tour lies in the dialogue between the various artistic trends of half a millennium.
